

Communication Towers

BUEC ~ TACAN Monitor ~ RCAG ~ RTO
Fiberglass *Non Frangible* Towers

These *specialty towers* are *non frangible* fiberglass manufactured to FAA Standards as are the LIR *frangible* masts. Tower color is white. Alternating red/white or custom color optional.

RCAG 40' w/ 2) aluminum crossarms w/ 8' horizontal & 15' vertical separation. BUEC 25' 1) crossarm, Tacan 40' 1) crossarm and 2) monitor clamps. Optional top cap interfaces for L-810 Obstruction lights and or elevated air terminal for lightning protection. Jaquith can design/manufacture the equipment interfaces. With lifting device, one man can raise/lower tower for service. Also see FAA Drawings CD-D7778 series. Contact **Jaquith Industries** for additional information and assistance.
